

## GERMANS SHOT DOWN AMERICAN PRISONERS

Captured Officer Admits This and Explains Americans Do Not Observe War Etiquette.

(By Newton C. Parke, International News Service Staff Correspondent.)  
With the American Army in France, June 18.—The Germans have shot a number of American prisoners before getting them back to the German trenches.

A German officer captured on Sunday in the fighting at Xivray admitted today to our intelligence officers.

The German complained that the Americans did not know the "etiquette" of warfare. After being captured, instead of submitting tamely and walking quietly towards the German lines, they often tried to catch their captors off their guard and kill them with pistols and knives and then escape.

"Therefore, we find it necessary to shoot some of your men," the prisoner declared.

The captive said the Americans inflicted heavy casualties during Sunday's raid particularly by machine gun fire and rifle fire.

While admitting that the attack was a complete repulse for the Germans the boche prisoner boasted it would soon be renewed.

## FOE OUT OF BREATH; PARIS FEELS SAFE

German Drive Finished for at Least Six or Eight Weeks, Says Barres.

(Copyright, 1918, by the New York World.)

Paris—Paris breathes easier once more. The city has heard the good tidings that the enemy is being held, that the bars are definitely up on the Neve-Montdidier front.

This announcement is made with great assurance by the best qualified spokesmen on military matters. Maurice Barres, who gleams information from the best sources, declares concerning the German drive on Paris:

"It is finished. They will recommence it in six weeks, perhaps in two months. Meanwhile they will look elsewhere."

"Enemy is Out of Breath." Regarding the latter affirmation there is also a unanimity of opinion: The enemy is out of breath and somewhat weakened by blood-letting. His latest rush was, perhaps, the most furious, but also the briefest, lasting only five days, whereas the average of the previous offensives was double that time. Undoubtedly he gained some ground, but the price he paid is suicidal.

For the allies the only facts mattering are Germany's double failure to rush Compiegne and to lure the French strategic reserves within reach.

The enormity of the German losses is guaranteed by official documents in the hands of the chief command. Of what nature the disclosures are can be inferred from the following:

"A Prussian regiment engaged at Rezon-sur-Matz counted in the evening of the fight scarcely seventy men."

The ever-increasing importance of tanks and air squadrons is eloquently demonstrated by the recent combats. Thanks to the tanks, the French were able to drive wedges into their opponent's flanks, obtaining the main gains.

Thanks to the concerted action of the French infantry and the air squadrons, the foe's numerical superiority of bayonets is counterbalanced. A striking example of this occurred on June 2 when a squadron of five score airplanes, carrying 4,000 bombs, crushed troops massing for a big attack.

## MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive looks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or make-shift, but with a simple mixture by putting a teaspoonful of Canthox (which they call the "drugist") in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, its luster and softness are delightful. (Adv.)

## AMERICA'S ROLL OF HONOR

The Casualty Lists Issued by War and Navy Departments Contain 49 and 103 Respectively—Two Tennesseans Are Included in the List, Several Georgians and 1 Alabamian.

On Monday, Jesse D. Forrester, a farmer at New England, Ga., received an encouraging letter from his son, Ernest E. Forrester, who is with American marines on the allied battle front. The young man expressed the desire to go to Berlin before he returned home.

In the marine casualty list received Tuesday morning Ernest E. Forrester is mentioned as having been severely wounded in action. He is only 22 years of age and joined the marines some time ago. In his letter he said he hoped to be home Christmas. New England, the home of the wounded Georgian, is only a short distance from Chattanooga, on the A. G. S. division of the Southern railway.

Lee Forrester, secretary of the Dade county draft board, is a cousin of Ernest E. Forrester. Also in the marine list are recorded the names of Burley G. Mynatt, of La Follette, Tenn., died of wounds. His name appeared a few days ago in the list of severely wounded.

Lieut. Richard W. Murphy, Greensboro, Ala., died of wounds. Rufus M. Gibbs, of Atlanta, Ga., died of wounds.

The war list contains the names of J. H. Kilgore, of Joppa, Ala., severely wounded. Lieut. John B. Mathis, Americus, Ga., killed in action.

Lieut. William G. Herrington, of Nancy, Ga., killed in action. Sergt. James Marcum, La Follette, Tenn., killed in action. Robert Farrow, Calhoun, Ga., wounded severely.

## Total Casualties.

Including today's list the total casualties in the marine corps have been 742, divided as follows:

Officers, killed in action, 5; dead of wounds received in action, 3; killed, airplane accident, 1; died of other causes, 1; wounded severely, 28; total, 38.

Enlisted men, killed in action, 106; died of wounds, 63; died of disease, 15; died of accidents, 2; died of other causes, 2; wounded severely, 141; wounded slightly, 373; missing in action, 1; prisoner of war, 1. Total, 704; grand total, 742.

PROFOUND DEJECTION  
REIGNS AMONG GERMANS  
People Expected Quick Victory.  
Realize Americans Will  
Turn War.

(Associated Press.)  
Geneva, June 18.—The enthusiasm created by the first German offensive has passed and a feeling of profound dejection reigns among the German people, according to an interview with a neutral diplomat who has just arrived in Geneva from Berlin, in La Suisse.

The people at home expected a quick victory from the early reports in official bulletins and, above all, a quick peace. The principal question asked in Berlin last week was:

"Have we entered Paris?"

The economic situation in the interior of Germany, the diplomat declared, is becoming more and more serious.

Germans, both military and civilians, now realize and virtually admit that the constant arrivals of fresh American troops will turn the tide of the war.

The diplomat concluded his interview with a statement that during a recent secret sitting of the reichstag the question of autonomy for Alsace-Lorraine was discussed officially for the first time since the beginning of the war.

BRITISH AIRMEN DROP  
24 TONS OF BOMBS

(International News Service.)  
London, June 18.—Twenty-four tons of bombs were dropped with good results by British airmen on Zebruggen, Ostend, the Bruges docks, Thourout, the Givelle airfield, works at Le-nigrois and Antwerp, on the 13th and 14th of June, the admiralty announced today. One British machine was lost.

## STEPS TO CUT COST OF RETAILING FOOD

Profiteering One of Causes of Disparity Between Wholesale and Retail Prices.

(International News Service.)  
Washington, June 18.—The cost of selling foodstuffs in retail markets will be heavily cut from 20 to 50 per cent. now being charged saved by the consumer. This was learned today from officials now making a sweeping investigation of the clumsy expensive distribution through retailers all over the United States.

Drastic recommendations to cut out unnecessary distribution charges will be the first step. The war industries board and the food administration both are agreed that heavy unnecessary distribution is largely responsible for the startling increase in the cost of food. This was indicated following preliminary investigations made by officials.

First, according to the food administration, cuts from 40 to 60 per cent. more than it should due to the overlapping in deliveries. From five to ten wagons serve one block in certain cities, it was said, where one would do the job.

The department of agriculture, is also working to cut down the high cost of foodstuffs. Representatives of that department are now planning along the line of recommendations made to the president to control the meat packers profits.

Meat packers are known to be the largest commission merchants in the country. They are said to have large interests in eggs, butter, cheese and other dairy products. All these will come in for a thorough investigation to determine a reasonable basis of profits.

A representative of the meat division of the food administration is also at work on the high cost of living with a view to cutting it down. He is said to be seeking constructive advice on the retail and wholesale situation from the members of the trade.

Although no immediate promise of a drop in prices had been made by officials, some today were confident that there would be a material decline within the next ten days.

"Fifteen publicity has already begun," said an official close to Mr. Hoover. "Public opinion is certainly aroused against continuing to meet the prevailing high prices. They will surely drop when the merchants know that a strong movement is on foot to check up on them from every standpoint."

## SOLDIERS DEMAND WAR CROSS FOR BOYAU

Famous French Sausage Balloon Destroyer Deserves Recognition.

(International News Service.)  
Paris, June 18.—American officers and soldiers are today demanding that congress award a war cross to Maurice Boyau, famous French sausage balloon destroyer, who was a Rugby football player before the war. Boyau was brought down recently by the Germans between the American and boche lines.

The Americans in their trenches 800 yards away, seeing that the Germans were preparing to capture Boyau, began getting ready to rescue him. Boyau, being a champion sprinter, set out from his machine and raced across "no man's land," reaching the American trenches in safety.

Learning that the Americans were about to attack, he tore off his leather coat and donned a "shrapnel" helmet. Then he asked for a rifle and grenades and went out with the Americans, where he took part in the fighting.

MILITARY TARGETS  
IN GERMANY BOMBED  
Allied Air Forces Attack Railway Stations at Thionville and Other Points.

London, June 18, via Ottawa.—In the period from June 6 to June 11 the royal air forces in bombing operations in Germany severely damaged military targets at Thionville, Metz-Sablons and other points, says an official summary.

The railway station and siding at Thionville were attacked four times and several direct hits were made on the station. An explosion was caused near the "carriage" works there. Two attacks were made on Metz-Sablons and a train there received a direct hit. Some three and a half tons of bombs were dropped on the railway siding at Metz-Sablons and the railway and munition factories at Thionville and Dillingen.

All British machines returned safely from all the expeditions.

## Have Pretty Dark Hair

"La Creole" Hair Dressing is the original hair color restorer, and not a dye. Applying it to your hair and scalp revives the color glands of nature, and restores your hair to a beautiful dark shade or to its natural color. It is the only hair color restorer that will gradually darken all your gray or faded hair in this way. No matter how gray, prematurely gray, faded or lusterless your hair might be, "La Creole" Hair Dressing will make it beautifully dark, soft and lustrous. "La Creole" Hair Dressing will not stain the scalp, wash or rub off, and is easily applied by simply combing or brushing through the hair. Don't be misled into buying some cheap preparation.

USE  
"LA CREOLE" HAIR DRESSING  
(for gray or faded hair and retain the appearance of youth. Also used by gentlemen to impart an even dark color to their gray hair, beard or mustache. Sold and guaranteed by all good drug stores everywhere, or sent direct for \$1.25 by the "La Creole" Mansfield Drug Co., Memphis, Tenn. (Adv.)

## NEGOTIATION FOR NEW BOUNDARIES BROKEN OFF

Offensive Movement of Germany on Eastern Front Resented by Russia.

London, June 18.—Owing to the action of Germany beginning an offensive against the Russian on part of the eastern front the negotiations for new boundaries have been broken off, according to a dispatch from Moscow, via the Russian wireless.

The Germans are reported to be advancing in the Vitebsk region. Orders have been issued at Moscow for the mobilization of the classes ranging from 1893 to 1897.

## NO SUCCESS IN THREE DAYS

Paris Believes Austrian Drive a Failure.

(Associated Press.)  
Paris, June 18.—(Havas agency.)—That the Austrians after three days of furious fighting have not gained any really important success, confirms the newspapers in their opinion that the offensive has failed.

L'Homme Libre says that the Italian resistance to every attack encourages the best hope and it is convinced that an Italian victory is assured, owing to the excellent spirits of the Italian troops.

DR. CHENEY VISITS  
ROME HOSPITAL

(Special to The News.)

Rome, Ga., June 18.—Dr. W. H. Cheney, pathologist and X-ray specialist, and his assistant, Miss Pearl Coggin, of Chattanooga, visited Dr. W. B. Harbin at his hospital Sunday. Mr. and Mrs. W. A. Toliver, of Chattanooga, were also in the party.

## IRON AND BLOOD.

Few people know that every courageous, red-blooded person, such as our own soldier boys at the front, has within his body fifty grains of iron, or as much as is contained in an ordinary "tenpenny" nail. To be brave, courageous and active one must have good, red blood. Our men of iron are men with good blood, good circulation and an active liver. The poor, weak "slacker" who is not brave enough to go to war, is probably unfit because of thin, watery blood. It is easy to acquire strength and red-blood corpuscles by taking regular exercise in the outdoors, breathing exercises in the morning, and something to increase the appetite and the red-blood corpuscles.

The newest iron tonic is "Irontic," discovered by Dr. Pierce and his staff of phys-

icians at the Surgical Institute, in Buffalo, N. Y. This "Irontic" tablet is a combination of soluble iron and herbal extracts, which is proving a wonderful success everywhere it can be obtained. Most druggists sell these "Irontic" tablets in sixty-cent vials.

In the morning when you awaken instead of feeling dull, down-hearted and blue, you have the buoyant feeling of youth, your eyes sparkle, and soon your skin will show the good effect. Send Dr. Pierce 10c for trial pkg. "Irontic" tablets build up strength, energize, and fill you full of vim, vigor and vitality.

The man who does physical work using his muscles, occasionally complains of sluggishness, muscular tired feeling, muscular stiffness or aches, neuralgic twinges, lumbago, rheumatism—symptoms all due to this uric acid accumulation. In every case Dr. Pierce advises hot water, and Anuric taken three times daily. Anuric is a simple, safe remedy, which is to be had at almost every drug store.
